

Li Ka Shing Faculty of Medicine

Available Minor Options (Quick Glance)

(For Non-Medical Students)

Major

For 2016/17 intake and before:

- Exercise Science

Minors

For 2016/17 intake and before:

- Exercise Science
- Genetics and Genomics
- Pharmaceutical Sciences

Effective from 2017/18 for 2016/17 intake and after:

- Biotechnology and Clinical Research
- Kinesiology

For details, please refer to individual factsheets.

Li Ka Shing Faculty of Medicine
Biotechnology and Clinical Research
(For 2017/18 intake and after)

Offered As:	✓ Minor
*Open to students of other Faculties:	✓
What is it about?	The Minor programme places emphasis on contemporary biomedical R&D innovations, and introduces the frameworks in translating and transforming basic science knowledge to new products, processes or services. This minor also offers operational concepts in clinical research that ranges from study design and human research ethics in clinical trials.
Offering Department/ School/Institute:	School of Biomedical Sciences
Pre-requisite requirements and/or other conditions for declaring the major/minor	<i>Minor:</i> BBMS1001 & any one of these courses: BBMS2008 , BBMS2009 For details, please check with the School of Biomedical Sciences.
Minor Programme Requirements:	<i>Minor:</i> Students are required to complete 36 credits of the following courses subject to the University's regulations on credit double-counting: BBMS1001, BBMS2005, BBMS2008, BBMS2009, BBMS2010, BBMS3012, BBMS3018, BBMS4005, BIOL3409, MEDE4604
Career opportunities:	The Minor programme is designed to educate and prepare future biomedical professionals looking to acquire knowledge and managerial skills in the pharmaceutical and biotechnology industries.
Further information:	http://www.sbms.hku.hk/education/undergraduate-education/bachelor-of-biomedical-sciences/curriculum-structure
Contact:	E: sbms@hku.hk P: 3917 9278

* Note: Students pursuing curricula with major / minor programme(s) must complete at least one major programme from their home Faculties upon graduation.

Disclaimer: The information mainly applies to students admitted in 2017-2018 and thereafter. For students from different cohorts, the information is only for reference. Please check with Faculty/offering department for details. The pre-requisite requirements / conditions are subject to changes by Faculties from time to time, and students are advised to check with their Faculty Office in case of doubt.

Li Ka Shing Faculty of Medicine Exercise Science

Offered As:	✓ Major	✓ Minor
*Open to students of other Faculties:	✓	
What is it about?	Exercise Science is a discipline dedicated to the scientific study of exercise and health, and the role of exercise in population health and rehabilitation. Students will gain a scientific understanding of how the body works and responds to exercise; the health benefits of exercise; how exercise can be prescribed, promoted and measured; and how movements are controlled and learned.	
Offering Department/ School/Institute:	School of Public Health	
Pre-requisite requirements and/or other conditions for declaring the major/minor	Pre-requisite courses for <u>both</u> major and minor: EXSC1001 and EXSC1002 Some advanced courses may be offered in alternate years. Please check the course availability on HKU Portal.	
Career opportunities:	Exercise Science complements a number of Programmes offered by other Faculties, such as Food & Nutritional Science and Psychology. A Second Major or Minor in Exercise Science will benefit students with aspirations for exercise, health, research or sport-related career.
