# Faculty of Engineering

## Environmental Engineering

**Offered As:**

- ✓ Minor

*Open to students of other Faculties:* ✓

### What is it about?

Hong Kong’s environment is deteriorating and the HKSAR Government commissions many engineering projects to improve the environment. Mandatory environmental impact assessments are required for all major public and private development projects. All of the effort for sustainable urban development has created a strong demand for graduates with a background in environmental engineering.

### Offering Faculty/ Department/ School/Institute:

Department of Civil Engineering

### Pre-requisite requirements and/or other conditions for declaring the major/minor

- Level 3 or above in HKDSE Mathematics or equivalent
- Level 3 or above in HKDSE Physics or Combined Science with Physics component or equivalent

### Careers opportunities

There is a strong demand for graduates with background in environmental engineering knowledge to tackle environmental problems related to our infrastructure, such as water supply, wastewater drainage, environmental impact assessment and pollution control.
