# Environmental Engineering

**Offered As:**
- ✓ Major

*Open to students of other Faculties:*
- ✓

**What is it about?**
With the increasing importance of environmental protection and conservation, engineers with high consciousness in environment are in high demand to provide solutions for engineering projects that will have positive impact on the world environment. This major is jointly offered by the Departments of Civil Engineering and Mechanical Engineering. Students will have the opportunity to study foundation engineering subjects and advanced courses in hydrology, waste management, renewable energy and pollution control.

**Offering Faculty/ Department/ School/Institute:**
- BEng in Engineering Science programme

**Pre-requisite requirements and/or other conditions for declaring the major/minor:**
- Level 3 or above in HKDSE Mathematics or equivalent
- Level 3 or above in HKDSE Physics or Combined Science with Physics component or equivalent

**Career opportunities:**
Graduates with this major may work as Engineering Consultants, Scientific Officers, or in the HKSAR government. For further information, please check with the Faculty of Engineering and CEDARS (Careers & Placement).
